

SUSSEX PAIN RELIEF CENTER

September 11, 2019

Dear Attorney,

Dr. Manonmani Antony is the Owner and Chief Practitioner of Sussex Pain Relief Center, a Delaware-based practice serving 4,000 patients annually, with a focus on treating chronic pain in a comprehensive manner with a laser-focus on the restoration of their daily function.

Dr. Antony is triple board-certified in Anesthesiology (ABA), Pain Medicine (ABA), and Interventional Pain Management (ABIPP/ASIPP). She has decades of experience in the evaluation and treatment of work-related injuries, auto injuries, and personal injuries. Dr. Antony is both SEAK-trained (SEAK is an ACCME accredited continuing education which trains physicians on non-clinical careers) and CEDIR/AMA Guides 6th ed. certified. This expertise renders Dr. Antony uniquely qualified to evaluate medical conditions related to occupational incidents and musculoskeletal disorders.

Dr. Antony is an Interventional Pain Specialist with a passion for providing the thorough, evidence-based medical evaluations necessary to define case issues and expedite conflict resolution in a timely and responsive fashion. She understands the importance of a high-quality IME in managing the medical, administrative and legal costs of Workers' Compensation claims or in defending negligence claims.

Dr. Antony is also available to provide expertise in legal, administrative, and legislative proceedings including trial testimony.

Our clear and concise written opinions are based on a thorough review of the pertinent medical facts, available data, and relevant peer-reviewed literature.

Enclosed you will find Dr. Antony's CV, a Sussex Pain Relief Center Profile, and our Fee Schedule, as well as other informative materials. Please feel free to contact me at anytime with questions.

We look forward to working with you in the future!

Sincerely,

Michelle Daino
